### **DETAILED ACTION**

This Office Action is in response to the Amendment filed on December 13, 2007.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 2-10 recite the limitation of a "first conductor type" and "a second conductive type." It is not understood if the applicant is referring to a conductivity type (usually p or n) as is known in the art of semiconductors or some other type of material.

#### ***Allowable Subject Matter***

Although claims 2-10 are rejected above under 35 USC 112, the claim contains allowable subject matter. If the 112 Rejection is overcome, the claims would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
